1. The Western Cape Education Department's vision for eEducation is aimed at teachers using technology as constant support for traditional lessons. The intention is that teaching methodology draws on multimedia-rich resources while learners access opportunities to engage with Information and Communication Technologies (ICTs) to support their learning.
2. The attached resource pack contains worksheets for Further Education and Training (FET) subjects covering content from Grades 10 to 12. This resource pack serves the following purposes:
  - 2.1 as revision exercises for learners; and
  - 2.2 as exemplars for teachers to develop their own.
3. Schools will receive two copies of the resource pack. Principals are encouraged to distribute the content of one pack to the respective subject heads and retain the other pack for his/her records.
