1. The safety of the candidates and the management of the credibility of the examinations remain the aim of a contingency plan that is unique to each school/centre and that could impact on the effective management of the NSC/SC examinations. Therefore, it is essential that principals/centre managers identify potential risks at each school/centre. Mitigation strategies must specify specific controls and actions that will be put in place to minimise or eradicate the risk before the examinations commence.
2. This template can be used as a guideline for the development and writing of a school/centre specific risk management and/or contingency plan. In cases where activities are still to take place, dates and responsible persons can be provided.

3. Schools/centres may use the comments in the last column as a guide to structure their plans.
4. Schools/centres must provide a contingency plan for the writing phase of the examinations.

School/Centre Contingency Plan

The aim of the contingency plan is to manage a safe and secure examination environment and to protect the integrity of the examination.

The chief invigilator/principal or his/her delegate will determine if he/she needs to activate the plans/protocol in consultation with the district office or Head Office, depending on the severity of the situation.
