

OBSERVATIONS

- (a) The candidates do not prepare themselves for the examination
- (b) They consider isiXhosa an easy subject that does not need to be studied.
- (c) They do not even know how to answer a comprehension question
- (d) Because of the above, the failure rate in this paper was high.

RECOMMENDATIONS

I recommend that these candidates be helped by the nearby schools offering isiXhosa as a First Language on the Higher Grade, because the grammar and language sections of the syllabus are almost the same.
