

Candidates did very well. It shows that both teachers and candidates worked very hard during the year to make sure that they pass at the end of the year. So I want to congratulate the educators as well as candidates for a job well done. However there is still room for improvement in other questions.

KAROLO A: TEKOKUTLWISISO

In this section candidates did fairly well. Most learners however were confused by the picture which was not clear. Teachers must however concentrate on the details of approaching the question and the right way of answering questions based on pictures. This will help them when they encounter such questions in the final examination.

KAROLO B: KGUTSUFATSO

Most candidates were unable to answer the question or found it difficult to answer this type of question. Most of them took sentences as they were from the passage instead of trying to write in their own understanding of the events from the passage. Teachers need to spend more time teaching learners how to go about answering this type of question.

KAROLO C: THUTO LE TSHEBEDISO YA PUO

Most learners did very well in this question. They followed the instructions and did not encounter any problems. It shows that they did receive proper guidance as most of them did very well.
