

2021 GROWTH MINDSET (GM) IMPLEMENTATION GUIDE

The Growth Mindset Intervention encourages learners to work towards improving their ability to learn and achieve, to continue to persevere, and to build and maintain a positive attitude in order to succeed in life.

The Growth Mindset implementation should be done by following the **online links** on each of the 3 posters:

- Register
- Baseline questionnaire
- GM videos compulsory and additional
- GM activities
- Consolidation
- Endline questionnaire

Districts/schools should **mediate** the GM posters with the teachers/learners which must be done according to the following timelines:

- Session 1 Poster: March – April 2021
- Session 2 Poster: May – June 2021
- Session 3 Poster: July – August 2021

Refresher and reinforcement of the GM concepts can be done on a regular basis.

Districts will issue the relevant **posters** after each successful completion of the previous poster and according to the relevant timelines.

Consent forms should be issued to all learners under 12 before the intervention and be kept at school as per safety record keeping protocols.

The **EMIS** number of the school should be shared with the learners.

Learners should know their **CEMIS** number and only enter the number and not their initials.

It is imperative that schools should submit all completed baseline and endline questionnaires.

Thank you for participating in the Growth Mindset Intervention.

Talent isn't passed down in the genes; It's passed down in the mindset - Carol Dweck
