

BIBLICAL STUDIES SG

SECTION A / AFDELING A

The majority of candidates could answer the short questions. However, they could not complete the scripture reference and it would appear that this was not emphasized. Candidates from some centres were unable to score high marks and it was evident that Section A had not been adequately covered.

SECTION B / AFDELING B

Questions 2, 3 and 4 were answered well. Question 5 was completely misinterpreted. Candidates who chose Question 5 were not at all prepared and showed no insight whatsoever into the question. The overall impression was that those candidates who scored a low mark attempted Question 5 thinking that they could rely on general knowledge. It must be stressed that the questions must be answered – Biblical Studies is not about general knowledge.

SECTION C / AFDELING C

Question 6 was a very popular question. However, this question was misinterpreted by the majority of the candidates. The whole HIV/AIDS issue was over-emphasized and the candidates did not link it to the seventh commandment at all. They very definitely tended to generalize and marks could not be awarded. It was evident that the second part of this question, 6.2, had not been adequately taught. It was also evident that Questions 7 and 9 had been neglected in the didactic process. Question 8 was answered well by most of the candidates, and was their salvation.

BYBELKUNDE SG

Die oorgrote meerderheid van kandidate kon die kortvragies beantwoord. Hulle kon egter nie die teksverwysing voltooi nie en dit wil voorkom asof dit nie beklemtoon is nie. Kandidate van sommige sentrums kon nie hoë punte behaal nie en is dit duidelik dat afdeling A afgeskeep is.

Vrae 2, 3 en vier is goed beantwoord. Vraag 5 is heeltemal verkeerd geïnterpreteer. Kandidate wat vraag 5 beantwoord het, was glad nie voorberei nie en het geen insig ten opsigte van die vraag getoon nie. Die algemene indruk was dat diene wat swak gevaar het, die vraag probeer beantwoord het met die idee dat hulle op algemene kennis sou kon staatmaak. Dit moet beklemtoon word dat vrae beantwoord moet word – Bybelkunde gaan nie oor algemene kennis nie.

Vraag 6 was 'n baie gewilde vraag. Tog het die meeste kandidaat die vraag verkeerd geïnterpreteer. Die hele MIV/VIGs-debat is oorbeklemtoon en kandidate het dit glad nie aan die sewende gebod gekoppel nie. Hulle het baie beslis veralgemeen en geen punte kon toegeken word nie. Dit was duidelik dat die tweede deel, 6.2, nie gedek is nie.

Dit was ook duidelik dat vrae 7 en 9 tydens die didaktiese proses afgeskeep is. Vraag 8 is goed beantwoord deur die meeste kandidate en was hulle redding.
