

## COMMERCIAL MATHEMATICS

### Question 2:

The X and Y axes must be visible on the graph. The scale must also appear on the graph. Readings must be shown by means of dotted lines and they must be numbered.

### Question 3:

Candidates must use only the appropriate letters to answer the multiple-choice questions.

### Questions 5:

Candidates have to be taught to use the correct formulas to calculate compound interest and depreciation.

### Question 6:

More attention needs to be given to the section on bankruptcies. Candidates did not know the difference between preferent claims and concurrent claims. They must also be taught how to round off to the nearest cent.

### Question 7:

The ratio in which the profit has to be divided according to the different periods needs to be carefully explained to candidates.

### General

Answers were very neatly presented but candidates must be reminded to start each new question on a new page.

## HANDELSWISKUNDE

### Vraag 2:

X- en Y- asse moet op die grafiek getoon word. Skale moet ook getoon word. Aflesings moet met stippellyne op die grafiek aangebring en genommer word.

### Vraag 3:

By di ebeantwoording van veelkeusevrae moet kandidate slegs van die toepaslike letters gebruik maak.

### Vraag 5:

Kandidate moet geleer word om die regte formulas by saamgestelde rente en waarde vermindering te gebruik.

### Vraag 6:

Meer aandag moet gegee word aan bankrotskappe. Kandidate het nie die verskil tussen preferente eise en konkurrente krediteure geken nie. Hulle moet ook geleer word hoe om tot die naaste sent af te rond.

### Vraag 7:

Die winsverdelingsverhouding volgens die produkte metode moet sorvuldig aan kandidate verduidelik word.

### Algemeen:

Antwoorde is netjies aangebied, maar kandidate moet daaraan herinner word om elke nuwe vraag op 'n nuwe bladsy te begin.
