

ISIXHOSA 1ST LANGUAGE SG PAPER 2

Candidates did not follow the instructions. In Section A they were supposed to have answered two questions, but some exceeded at number.

In Section B some candidates performed well, but others had not read the play.

In Sections B and C there were also candidates who did not follow the instructions. If a candidate chooses a contextual question in Section B, he or she must choose a long question in Section C, or vice versa.

Judging by the answers, it seems as if most of the candidates did not have the novel "Idinga" and most of them failed this question.
