

SESOTHO SG PAPER 1

Section A: This was well answered.

Section B: Candidates did not do well in this section possibly. They did not follow the instruction even though they were clear and unambiguous. Teachers must give more attention to this section.

Section C: Few candidates were able to answer Questions 3.1, 4.1 and 5. Lack of grammar skills and competence may have been the reason.

Recommendations:

Educators should form cluster groups where they assist each other.

Educators should focus on problem areas such as editing, some aspects of grammar and summarising.
